
MISO conditioning and known-truth accuracy
A Absolute MAP error
MISO MAP complex error
Normalized condition number
Family mean MAP-PETCO2 coherence
B Absolute CO2 error
MISO CO2 complex error
Normalized condition number
Family mean MAP-PETCO2 coherence
C Comparative MAP accuracy
MAP model advantage: log10(SISO/MISO error)
Normalized condition number
PSD-shape overlap (Bhattacharyya coefficient)
D Input relationship and conditioning
Median normalized condition number
Family mean MAP-PETCO2 coherence
PSD-shape overlap (Bhattacharyya coefficient)
